

ANURAG PANUHAR

Web Developer | React, Next.js & Node.js

Kathmandu, Nepal | +977 9707108983 | anuragpanuhar016@gmail.com

Portfolio | github.com/prahans | LinkedIn

JavaScript and TypeScript developer with hands-on experience building and deploying personal full-stack projects. Skilled in React interfaces, Node.js REST APIs, authentication, and database-backed workflows using MongoDB and PostgreSQL.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS; additional: Java, C, C++

Frontend: React, Next.js, React Router, TanStack Query, Redux Toolkit, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT, sessions, authentication & authorization

Databases & tools: MongoDB, Mongoose, PostgreSQL, Supabase, Git, GitHub, Vite

Deployment: Vercel, Netlify, Render | **AI-assisted development:** OpenAI Codex

SELECTED PROJECTS

Full-Stack Stock Trading Platform

2026

Personal project | Code | Live

React · Node.js · Express.js · MongoDB · Mongoose

- Built a Zerodha-inspired application with a separate public frontend and trading dashboard; connected holdings, positions, and order workflows to an Express API and MongoDB.
- Restricted dashboard access through login and signup; configured deployment environment variables to connect the Vercel frontend and dashboard with the Render backend.

The Wild Oasis Website | Cabin Reservations

2026

Personal project | Code | Live

Next.js · React · TypeScript · Supabase · Auth.js · Tailwind CSS

- Enabled guests to find cabins by capacity, select dates, and create, edit, or cancel reservations with persistent Supabase data.
- Protected guest accounts with Google sign-in and ownership checks; used Server Actions for reservation and profile updates.

WanderLust | Vacation Rental Listings

2026

Personal project | Code | Live

JavaScript · Node.js · Express.js · MongoDB · Mongoose

- Built property listing CRUD, image uploads, and reviews and ratings; applied authentication and authorization to control protected actions.
- Separated routes, controllers, and models to organize listing and review logic; deployed the full-stack application on Render.

The Wild Oasis | Booking Management Dashboard

2026

Personal project | Code | Live

React · React Query · Supabase / PostgreSQL · Styled Components

- Built an authenticated dashboard to manage cabins, guest information, booking filters, and reservation status updates.
- Used React Query to manage server data and Recharts to summarize booking and revenue statistics; deployed on Netlify.

CERTIFICATIONS

MERN Stack Web Development - Sigma Web Development

React Development - Udemy | PostgreSQL - Udemy

EDUCATION

Himalayan WhiteHouse International College

Kathmandu, Nepal

AUG 2021 - AUG 2023

Higher secondary coursework, Science - Physics, Chemistry & Mathematics
